## about us...

Sunso is one of the leading Spanish brands of contemporary outdoor furniture . We are one of the manufacturer and preferred furniture suppliers at finest hotels and venues.

Our long established brand has been developed over the years into a Flagship Collection which is recognized by many for its style, creativity and high quality. Sunso provides solutions and innovative design for outdoor spaces from garden, porches, terraces making your home or outdoor area unique and different.

Our objective is to develop very durable, functional and aesthetically pleasing furniture to offer enjoyable, relaxing and inspiring moments outdoors with friends and family. We also offer the best products in quality and in price for integral projects like: beach clubs, golf resorts, hotels, restaurants, etc. Through our innovation and attention to detail we are excited to introduce our New Collections with emphasis on more natural and warm lines.

So enjoy the outdoor life with us...

## TOP QUALITY MATERIALS

### Fibers and ropes

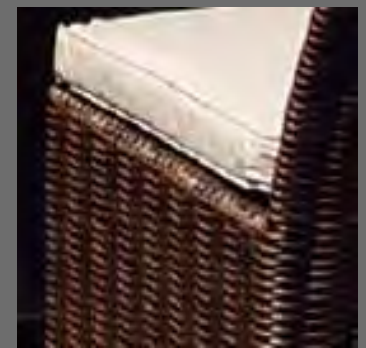

Sunso has selected the best quality outdoor materials including the synthetic fibers from REHAU, FIBERTEX ropes from POLYSTRAND and BATYLINE textiles from FERRARI for their technical properties and aspects.

The rope material we use is made from 100% Polyester or Acrylic and what makes this material special is because the characteristic of POLYESTER and ACRYLIC :

1. Polyester and Acrylic materials are extremely strong.
2. Polyester and Acrylic materials are very durable: resistant to most chemicals, stretching and shrinking, wrinkle resistant, mildew and abrasion resistant.
3. Polyester and Acrylic materials are hydrophobic in nature and quick drying.
4. Polyester and Acrylic materials retain its shape and hence is good for making outdoor clothing for harsh climates. It is easily washed and dried.
5. Polyester and Acrylic materials can be dry-cleaned with no hassles. Use water (warm: suggested) and add a fabric soap to the final rinse cycle.
6. Highest color fastness and among the conventional synthetic ropes available Polyester and Acrylic materials have the lowest stretch and best abrasion resistance, combined with excellent UV resistance.

### Cushions

Cushions are made of high density foam and Dacron. Some collections use QUICK DRY FOAM. For the covers, we use a water and UV resistant fabric suitable for normal outdoor usage or Sunbrella for intensive outdoor usage.

### WHY SUNSO MATERIALS ?

- All our structures are handmade from structure to weaving and all our synthetic rattan and rope furniture are woven over powder-coated aluminum structures.
- Sunso has selected the best materials for their technical properties and aspect. They are extremely robust, tear proof and resistant to UV rays, chlorine waters, salt waters, microorganisms, pests and food stains.
- We are giving guarantee for 3 years for residential usage and 2 years for contract.

To answer our customer's demand for project specific designs, we have developed a range of products with simple lines yet stylish, comfortable and functional. All our chairs as well as our sunbeds are stackable and we offer folding or stackable tables.

In addition to this range, we can also develop products based on your specific requirements. From initial design to implementation, we assist you in every step of the development process with creativity and flexibility.
