the art of
lounging

“ Light is the first element of design, without it, there is no colour, shape or texture. Light is the magic ingredient that makes or modifies a space. We are, therefore, facing one of the most important elements for the creation of memories and experiences.”

Thomas E. Farin & Benjamin Noriega.

The power of the sun is unimaginable. It is capable of generating life, inspiring our personality or changing our state of mind in seconds. At Newgarden we know about its power. That is why, since our beginnings, its energy has been the protagonist in our products. This is why we have ensured that the majority of our designs are available with a solar option.

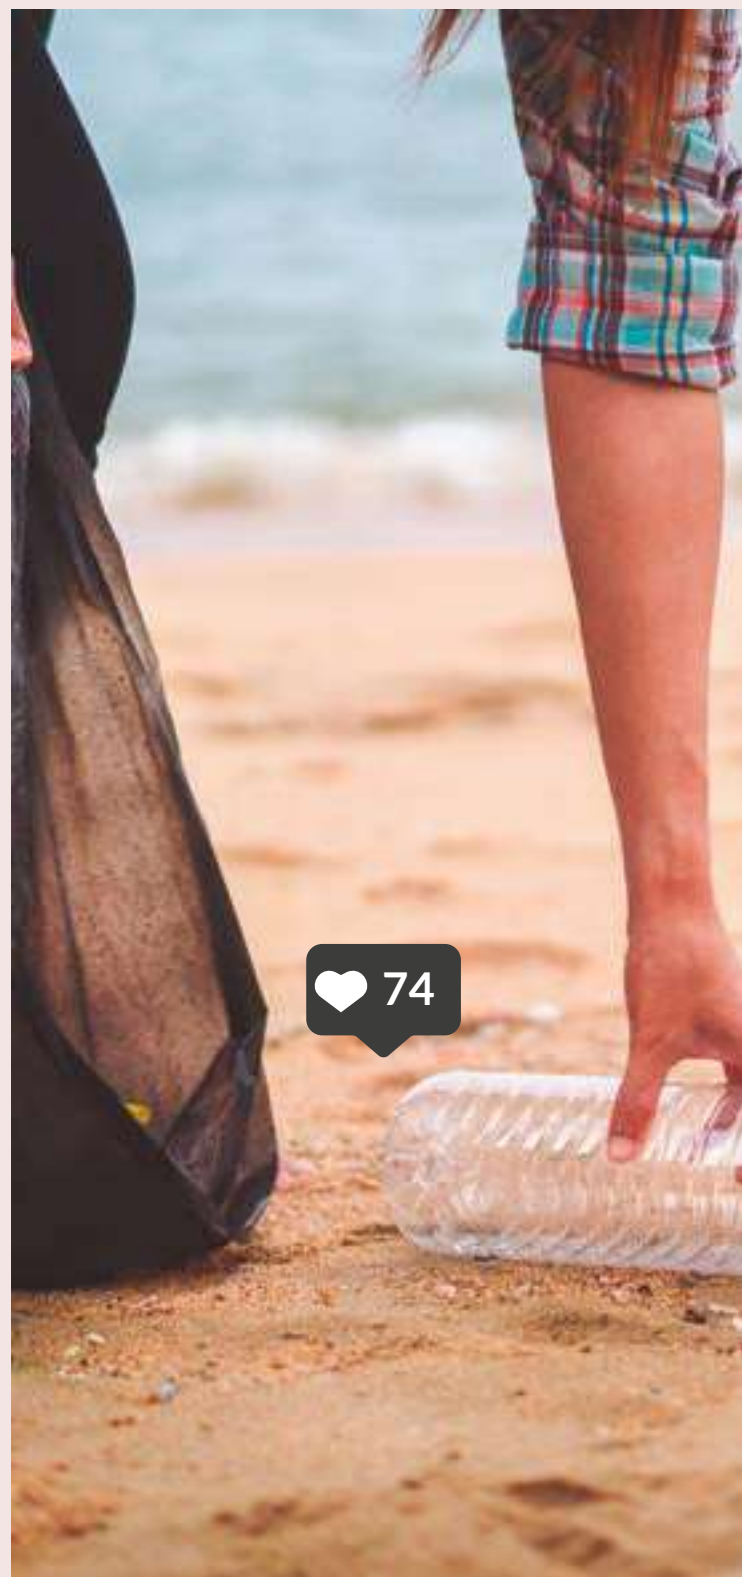

*sun is
our energy*

**We recycle.
We reuse.
We reduce.**

Nature is our mother, and we love her as such she were our mother. Newgarden works every day to improve all our processes in order to protect and care for our environment. We are not content just with all of our products being recyclable so we have designed Gretita and Greta, two collections of lamps made exclusively from recycled materials.

sustainability **stories.**

Nature Lovers.

ALL OUR PRODUCTS ARE 100% RECYCLABLE AND HAVE A LONG LIFE SPAN, HELPING TO REDUCE WASTE AND PROMOTING RESPONSIBLE CONSUMPTION. FOR EVERY LAMP IN THE GRETA OR GRETITA COLLECTION THAT WE MAKE, WE HELP TO GIVE A SECOND LIFE TO PLASTICS COLLECTED FROM SEAS AND OCEANS.

Handmade.

NATURAL FIBRES SUCH AS HEMP OR BAMBOO ARE WIDELY REPRESENTED IN OUR COLLECTION. BEING HANDMADE, THEY ARE ABLE TO TRANSPORT US TO NATURE AND TO THE MEDITERRANEAN JUST BY LOOKING AT THEM.

Think Local.

WE COLLABORATE WITH SPECIALISED LOCAL PRODUCERS WITHIN THEIR REGIONS - THIS HELPS THEIR ECONOMIES GROWTH AND SUPPORTS INFRASTRUCTURES DEVELOPMENT.

Some products may have a combination of several materials, in which case we will refer to the predominant material of the product.

(*)For the proper maintenance, it is advisable to protect them form rain, direct exposure to the sun and sudden changes in temperatures. Bamboo, rattan beechwood or seaweed are natural materials, reason why changes of colour or cracks can happen. If they are going to be exposed to natural elements, it is recommended to protect them regularly with some oil or varnish appropriate for each specific material, so the protection to rain and UVA rays will be prolonged and the life of the product can be extended. To clean them up, use a cloth or a brush to remove dust and rub gently with a slightly moistened sponge.

2. Polyethlyne Textures.

Newgarden's products made of polyethylene have a visually smooth and softly granulated finish that is very pleasant to the touch.

SMOOTH TEXTURE

The rustic finish can be found in a very specific selection of flowerpots.

4. Use according to IP

Here you can find information about the possible uses of Newgarden's products according to their IP (index of protection of the electrical or electronic system against external agents)

Newgarden's products with IP20 can only be used indoors, the electrical system, switches or cables must be protected from direct contact with water. Note that, although the product is made of Polyethylene, which is resistant to the outside, the electrical system is designed for **indoor use only**.

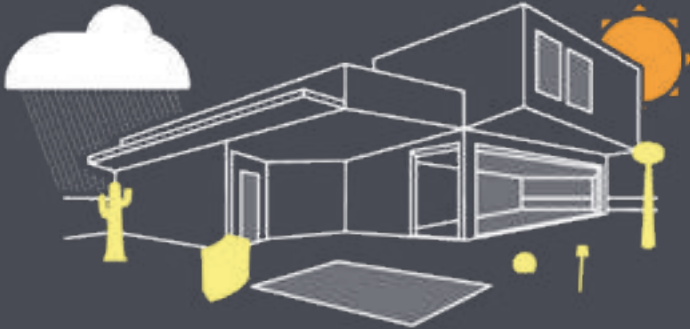

Newgarden's products with IP 43 / 44 can be used outdoors, it is protected against dust and weak and very moderate rain. **If these product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity.** Store in a dry place after use. In the event of rain or very adverse weather conditions, it should be protected from the elements to avoid future problems.

Newgarden's products with IP 54 **can be used outdoors, as they are protected against dust and light rain.** If these product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity. Store in a dry place after use. In case of rain or very adverse weather conditions it must be protected from the weather to avoid future problems.

Newgarden's products with IP 65 **can be used outdoors, they are airtight against dust and rain. If these product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity.** Store in a dry place after use. In case of rain or very adverse weather conditions it must be protected from the weather to avoid future problems.

Newgarden's products with IP 68 can be used outdoors, they are airtight against dust and rain. **They are also floating (not submersible) so they can be used in the pool.** In case of very adverse weather conditions they must be protected from the elements to avoid future problems.
