WELCOME TO SUNSO FURNITURE

Sunso is the leading Spanish brand of contemporary outdoor furniture on the Costa del Sol.

We are the manufacturer and the preferred furniture provider at Marbella's finest hotels and venues. Our long established brand has been developed over the years into a Flagship Collection which is recognized by many for its style, creativity and high quality.

Sunso provides solutions and innovative design for outdoor spaces from garden, porches, terraces making your home unique and different.

Our objective is to develop very durable, functional and aesthetically pleasing furniture to offer enjoyable, relaxing and inspiring moments outdoors with friends and family.

We also offer the best products in quality and in price for integral projects like: beach clubs, golfs, hotels, restaurants, etc. Through our innovation and attention to detail we are excited to introduce our New Collections with emphasis on more natural and warm lines.

So enjoy the outdoor life with us...

pininfarina

COLLECTIONS

Pininfarina Extra, is part of the world-famous design house Pininfarina, whose history traces back to 1930 when the company was established by Battista Pinin-Farina, who became the most acclaimed car designer of his time For example the Cisitalia 202 by Pininfarina (1947), was the first and only car to enter into a permanent display at the MoMA of New York, in 1961. Up to today, more than 100 Ferrari cars that have gone into production have been designed by Pininfarina.

In 1986, the third generation of the Pininfarina family created Pininfarina Extra srl to extend the design capabilities of the company, outside of the automotive sector. Over the past 30 years, Pininfarina Extra has developed more than 600 projects under the direction of its President and Chief Executive Officer, Paolo Pininfarina (now Chairman of the Pininfarina Group), and has established its own direction and a clear identity.

Today the company has ventured into a variety of commodity sectors where products bearing the Pininfarina name have won acclaim in the world's leading markets. The company attempts to blend the most advanced features of scientific, technological and engineering research with attractiveness that should accompany the things we use every day. Pininfarina Extra is a reliable and competent partner to firms wishing to use design as a strategic asset for their product development process and a tool of communication to improve their position in the market.

The main activities of the company include Industrial design (electronics, sporting goods, furniture, equipment and machinery, consumer products, graphic design and packaging), Architecture and interiors (residential, hospitality, sport and commercial structures), and Transportation design (Yachts, airplanes, private jets, people movers)

NEW ARRIVAL

Armonia

DESIGN BY PININFARINA

“Armonia” has been conceived to bring the elegance of the interior environments to the outdoor spaces, creating a seamless and elegant living experience. The juxtaposition of contrasting elements is the main component around which the design language of this new sofa plays. The use of wood and braided rope gives it an artisanal and classic look, balanced by the modernity of the clean lines and the shaped body. The play of contrasts continues through the dualism between soft and rigid surfaces, full and empty spaces, modernity and past, reflecting the style of Pininfarina centered on the tradition of the new.

Dualities and contrasts, however, are not meant to create splits, but as a constant tension towards a new balance to create harmony. Finally, the use of specially designed materials allows this sofa to be enjoyed in outdoor environments in total safety and ensuring top performance against atmospheric agents without compromising aesthetics and comfort.

Onda

DESIGN BY PININFARINA

Being conceived for the outdoor, the Pininfarina design team took the inspiration from the dynamism, elegance and purity of the ocean waves, the empty space that is created when a wave is broken, resulting in to a hollow or tube wave (onda in Italian).

The heart of the Collection is the structure, an aluminum band sustaining the cushions and becoming the iconic element of the whole Collection. Characterized by fluid lines - as the ones of the wave - the band beyond being an aesthetic element becomes also a functional element, a rigid armrest that can be used to lean objects. The choice of the materials come from the Pininfarina 360° design experience: the aluminum – coming from the car sector - for the structure , the fabrics – used in the yachts for its resistance – for the cushions.

“We have looked at the magic of nature to give life to Onda which is distinctive and, at the same time, able to be integrated in different environments. Technology and know-how coming from different sectors make it really unique” affirms Paolo Pininfarina, Pininfarina Chairman.

Wing

DESIGN BY PININFARINA

Inspired by the lightness of wing, the archetype par excellence that combines lightness and strength-in the WING collection, the designers were guided by the concept of physical and perceived lightness.

The dynamic, pure and elegant lines give the collection a style suitable for both urban contexts and environments where nature is the protagonist.

The elements of the collection are characterized by a folded aluminum structure and enriched by geometric and essential lines that recall the world of architecture.

Glatz Serge Ferrari pininfarina sunbrella REHAU batyline® Quick Dry Foam

Cushions

are available for each piece of furniture. The cushions are made of high density foam and Dacron. Some collections use QUICK DRY FOAM. For the covers, we use a water and UV resistant fabric suitable for normal outdoor usage or Sunbrella for intensive outdoor usage.

Fibers

Sunso has selected the best quality outdoor materials including the synthetic fibers from REHAU, Fibertex from POLYSTRAND textiles for their technical properties and aspects. These fibers are extremely robust, tear-proof and resistant to UV rays, chlorine waters, micro-organisms, pests and food stains.
